

How to Select and Build a Turnstile

Thanks for coming to our Turnstile website!

Building a turnstile is easy.

All you have to do is know the answers to several questions that will make the turnstile building process easy and assure we create the perfect unit for your needs.

Just print these 2 pages out, fill in the blanks and fax them over to us at (800) 942-0828. We'll give you a call to confirm a few things and your turnstiles will be built and ready to go!

ABOUT YOU and THE TURNSTILE PROJECT

Name _____

Company _____

Project Name _____

Are you an:

Other (specify please) _____

How can we reach you:

Phone # _____

Fax # _____

Email _____

ABOUT THE TURNSTILE / TURNSTILES YOU NEED:

In this brief section, we just want to know some basics that are essential when you order a turnstile. Here, we want to know things like what model is best for you, what options you need, how you want the unit set-up (directions for traffic-flow) and anything else on your mind about this purchase.

What is the use going to be: Inside ____ or Outside ____

How many units will you need? _____

Will power be available to the site? _____

Is this a high volume or low volume traffic area? _____

Do you have a model in mind? _____

What options/features do you want...what do you want it to do?

Click on any picture on the website and you will see everything you need to know about a certain turnstile. Please call us if you have ANY questions at (800) 942-0829. Thanks! Examples of this are: a counter, metal detection capability, lights that signal "proceed" etc.

Which direction do you want your traffic to flow? -- *You will see a sheet called DIRECTION SHEET under the SITEMAP MENU. That is critical when building your turnstile.*

Once we have the answers to these questions, we can have your turnstiles designed and built and to your site! Of course we need to also know:

Delivery Location: _____

Method Of Payment:

Credit Card _____ *or your*

PO # _____
